£ 1089

Technical Specifications

CUTTER SIZE RANGE	12-100mm
TWIST DRILL RANGE	4-30mm
TAPPING RANGE	M3-M30
COUNTERSINKING	55mm
REAMING	32mm
LENGTH	365mm
WIDTH INC HANDLES	310mm
HEIGHT	510-710mm
STROKE	260mm
WEIGHT	28Kg
MAGNET SIZE (L x W)	220x110mm
MAGNETIC FORCE	3000 kg
MOTOR POWER	2050W
SPEED/s (RPM)	1) 42-110 2) 65-190 3)140-400 4)220-620
ARBOR	Morse Taper 3
TAKES CHUCK	Yes
COOLANT SYSTEM	Integrated

The MAX100T is a robust and heavy duty unit virtually all the performance you will ever need in a magnetic drill. It features an exceptionally powerful 2050W motor, advanced electronics and variable speed motor with reverse. Suitable for broaching, up to M30 tapping, reaming and countersinking.

Each machine comes in a wheeled plastic site carrying case, moulded to protect the machine and accessories. Free accessory pack contains: removable internal coolant system, bottle of broaching lubricant, safety pack with gloves, specs, ear plugs, removable metal guard, safety chain, 4 hex keys.

Use with VersaDrive Morse Taper 3 Arbor to quickly convert for use with all VersaDrive Tooling. See Page 31

HEAVY-DUTY WORKHORSE FOR LONG LIFE AND HIGH POWER. WITH EXCELLENT 3000KG MAGNET STABILITY AND LONG STROKE
